QDRO Pre-Approval Service

Pension Analysis Consultants (PAC®) provides an *optional* QDRO Pre-Approval Service for those who want us to handle the pre-approval process directly with the Plan. With this option, you receive the draft QDRO already pre-approved by the Plan, ready for court certification and then Plan submission and execution. **PAC® Pre-Approval Service is available for most Defined Benefit Plans (pensions) and most Defined Contribution Plans including 401(k) and Savings Plans.**

Federal, Military and Vanguard or Fidelity: Pre-Approval Service is not available for Federal, Military and Vanguard or Fidelity-administered or other Plans who require court-certified documentation prior to pre-approval review. **IRA's:** Many IRA's do not require QDROs. **We encourage you to secure confirmation directly with the investment company that a QDRO or DRO is required before you request our services. Once the fee has been submitted, the Pre-Approval fee is nonrefundable.**

We submit the custom hand-drafted QDRO directly to the QDRO Administrator and follow up to confirm receipt. We review files monthly to check status and send reminders to the Administrator if no response. We review Plan feedback and prepare modified drafts to accommodate Plan-necessitated revisions. With each step, we update the pre-approval spreadsheets and insert copies of all correspondence to and from the Plan in your QDRO file folder. Upon Plan pre-approval, we send you the pre-approved draft QDRO for Court and final Plan submission.

If Plan required revisions are requested, we will incorporate any necessary changes and re-submit for pre-approval, usually at no extra fee. However, if there are substantial changes required which alter the intent of the parties' agreement or are substantially different than that originally requested, additional fees may apply.

PAC® drafts the QDRO in approximately two weeks. The entire pre-approval process is often accomplished smoothly within eight to twelve weeks. In many instances, the process could take months longer depending on the Plan. Plan administrators are not required to review orders within any particular time frame. PAC® is not responsible for lack of Plan response or the slowness of Plan Review Committee scheduling. PAC® is not responsible for internal Plan procedures or the effects of market fluctuation that may occur during the QDRO pre-approval process.

Contact Information: PAC® requests that you or the client contact the Plan to secure the name and contact information of the specific person and their company (often it will be a third-party administrator) responsible for the Plan's QDRO Pre-Approval Review. Giving us correct information regarding the exact name of the Plan and the right person who handles QDRO Review will help the process move faster and minimize pre-approval delays.
