QDRO PRE-APPROVAL INFORMATION SHEET

Pension Analysis Consultants (PAC®) will send the draft QDRO directly to the plan for pre-approval review. Getting the draft pre-approved is recommended to avoid repeat court certification if original QDRO is denied for any reason.

Pre-Approval Service is available for most Defined Benefit Plans (pensions) and most Defined Contribution Plans including 401(k) and Savings Plans. It is not available for Federal, Military and Fidelity-administered or other Plans who require court-certified documentation prior to pre-approval review.

Pre-Approval Process: We submit your draft QDRO directly to the QDRO Administrator you have indicated. We follow up to confirm receipt. We review files monthly to check status. We send reminders to the QDRO Administrator. We review Plan feedback. We prepare modified drafts to accommodate Plan-necessitated revisions. With each step, we update the pre-approval spreadsheets and insert copies of all correspondence to and from the Plan in your QDRO file folder. Upon Plan pre-approval, we send you the pre-approved draft QDRO for Court and final Plan submission.

Revisions: If Plan required revisions are requested, we will incorporate any necessary changes and re-submit for pre-approval, usually at no extra fee. However, if there are substantial changes required which alter the intent of the parties' agreement or are substantially different than that originally requested, additional fees may apply.

Turnaround: PAC® drafts the QDRO in approximately two weeks. The entire pre-approval process is often accomplished smoothly within eight to twelve weeks. In many instances, the process could take months longer depending on the Plan. Plan administrators are not required to review orders within any particular time frame. PAC® is not responsible for lack of Plan response or the slowness of Plan Review Committee scheduling. PAC® is not responsible for internal Plan procedures or the effects of market fluctuation that may occur during the QDRO pre-approval process.

Required Contact Information: PAC® requests that you or the client contact the Plan to secure the name and contact information of the specific person and their company (often it will be a third-party administrator) responsible for the Plan's QDRO Pre-Approval Review. Correct information of exact name of the Plan and the right person to contact for pre-approval QDRO Review will help move the process faster and minimize pre-approval delays.
